The meeting will discuss that in a world awashed with weapons, multiple crisis, political chaos, wars in Syria, Iraq, Yemen and Afghanistan, refugee crisis in Europe, Greek debt drama and economic disaster, tension in Ukraine and Asia Pacific, it maybe idealistic to talk of abolishing war and building peace. However, all advances in human history has happened during long periods of peace. We will explore how international cooperation, dialogue, diplomacy can bring the necessary change we need to build a more fairer, peaceful and prosperous world.
